AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. Cancelled
2. (Previously Presented) A shaving razor comprising
a housing having a primary guard at a front of said housing and a primary cap at an upper surface at a back of said housing, one or more primary shaving blades between said primary guard and said primary cap,
a trimming blade mounted at the back of said housing having a trimming blade cutting edge oriented away from said upper surface, and
an elongated handle having a first end secured to said housing, said handle having a finger pad at said first end on the same side as said primary blades.
3. (Previously Presented) A shaving razor comprising
a housing having a primary guard at a front of said housing and a primary cap at an upper surface at a back of said housing, one or more primary shaving blades between said primary guard and said primary cap,
a trimming blade mounted at the back of said housing having a trimming blade cutting edge oriented away from said upper surface, and
an elongated handle having a first end secured to said housing, said handle being bifurcated adjacent said first end into two portions such that there is a region between said two portions, the two portions joining at the first end to enclose the region.
4. Cancelled

5. (Previously Presented) The shaving razor of claim 3 wherein said handle has a finger pad at said first end on the same side as said primary blades.
6. (Previously Presented) The shaving razor of claim 2 wherein said handle is bifurcated at said first end into two portions such that there is a region between said two portions, the region being positioned to provide access to the finger pad.
7. (Previously Presented) The shaving razor of claim 2 or 5 wherein said finger pad is made of elastomeric material.
8. (Previously Presented) The shaving razor of claim 2, 5 or 6 wherein said handle has relieved surfaces positioned to provide access to said finger pad.
9. (Previously Presented) The shaving razor of claim 2 or 3 wherein there are three or more said primary shaving blades.
10. (Previously Presented) The shaving razor of claim 2 or 3 wherein there are four or more said primary shaving blades.
11. (Previously Presented) The shaving razor of claim 2 or 3 wherein there are five or more said primary shaving blades.
12. (Previously Presented) The shaving razor of claim 2 or 3 wherein said housing is pivotally connected to said handle by a connection that has an at rest stop position to prevent pivoting of said housing when the trimming blade is cutting hair.
13. (Previously Presented) The shaving razor of claim 2 or 3 wherein said handle has a curve at said first end that is concave on the same side as said primary blades.
